Hey Sarah,

For the first question, I will have Eve reach out to you so she may provide you with more context. All right, I will contact Leonardo and see what has changed. Lastly, thanks again!

Have a great day

1. Did something happen that our department should be looking into with regard to our customers that have brown bins? It's helpful to have some context. Those who board or keep horses require them and they pay for them like everyone else. I am not sure if we would share our customer's data that way but I will ask. As for the zoning, ask planning and or building and safety which tracts can have horses. Speak with Animal Services about horse licensing. We only pick up the manure, we don't dictate who can have what.
2. Street Services is supposed to pick those up. They've been picking them up for a couple years now without us. If they are no longer doing that Leo can reach out to me directly and I will help him make arrangements.
3. Yes, I will send it later today or Monday.

Hello Sarah,

I hope you are doing well. I was wondering if you could help me with these questions:

1. First one is from Eve: Is it possible for us to get a list of all addresses in CD7 that utilize brown bin service? Also, what are the requirements for brown bin service? Do they need to have licensed horses to receive brown bins? Be located in K-zone area?
2. I recently had street services mark a donation bin so it may be removed. Leonardo Antepara, Street Services Investigator, told me sanitation could remove it once there has been no contact from the owner and it has been marked by street services for over 24 hours. The donation bin is located on [12938 Goleta St.](#) Here is the SR#: 1-1572097701. He told me sanitation may contact him if there were any questions: 213-216-9104
3. Lastly, may I get the official CARE+ cycle list just so I may have it for my records.

Thanks again for your help,

**Cristian Tafoya, Caseworker**
